

Children's Art

Children love art. Involve the children by coordinating an art activity about their time in childcare. Write down their stories and send them to politicians and candidates to remind them who quality childcare is really about.

Draw

Ask the children to draw a picture of themselves at childcare.

If they're old enough, ask them to draw what they want to be when they grow up.

Hand Prints

Make a poster of children's hand prints.

Materials

1 large sheet of butchers' paper, 4-5 different coloured paints, 1 roller or brush, rags & water to clean hands

Children's Postcards

Ask the children to draw a picture of something that's important to them on postcard size paper.

Cut out a postcard sample (Action Sheet 2), write a message & send to politicians and candidates.
